

The Role of Schools and Communities in Helping Children to Heal from Trauma

with Dr. Jeanne Felter, PhD, LPC

JUNE 8th
5:45-9pm
Edward T. Steel
School
4301 Wayne Ave
Philadelphia, PA
19140

IN THIS WORKSHOP WE WILL

Define trauma and discuss the prevalence of trauma among Philadelphia youth

Discuss the adverse Childhood Experiences (ACE) Study and its implications

Describe and discuss the potential effects of trauma on a child's development, health, learning and overall functioning

Recognize and discuss the critical role of the school and community in helping children to heal from trauma

Dr. Jeanne Felter is the Director of the Community and Trauma Counseling Program at Philadelphia University. She has extensive experience working with and collaborating with many Philadelphia K-12 schools and systems. Additionally, she is an active participant on The Philadelphia ACES Taskforce, and co-chairs the group's Workforce Development Subcommittee.
